

Executive/Manager Leadership Assessments

Experience comprehensive validated assessments that will reveal insights and strategies to take you to the next level in your leadership and personal performance....

- ~You'll gain a better understanding of yourself and your natural leadership style and how to use it more effectively
- ~ You'll learn which attitudes and values drive your actions and decisions
- ~ You'll discover the core dimensions of how you think, and a rating of your personal attributes and competencies with strengths and areas for development.

1. Who you are on the outside

The Success Insights TM *Management-Staff Version* assesses your normal behavior tendencies and provides a process to increase your understanding of yourself and others. It reveals such details as your strengths and limitations, your value to the organization, and your ideal work environment. It will increase your effectiveness in relationships, collaboration, operations and performance improvement.

2. Why you do what you do

The *Workplace Motivators* TM assessment helps you understand your hidden motivators, the WHY you do what you do and what drives you to action and workplace success. You'll immediately understand the causes of conflict in relationships and better understand how others' values and attitudes interact with yours. This tool is useful for coaching, development, and succession planning.

3. What you are clear and focused on

The *Personal Talent Skills Inventory* TM is designed to help you discover and develop your personal talent for success. This assessment measures how you think, resulting in an accurate ranking of personal capacities that describe your potential for performance. These include Human Resource Management, Performance Management, Planning and Organizing, Self Management, Leadership by Example, Guiding Vision, and Inspiring Excellence. This assessment can be a basis for coaching, mentoring and/or selection.
